Overview

Stahlin Non-Metallic Enclosures

Stahlin provides the the most frequently specified non-metallic electrical enclosures in the world, balancing appealing aesthetics with stringent physical property performance standards including NEMA 4X and NEMA 6P integrity.

The performance of our enclosures is so reliable, which is why we offer our Sun-Up-To-Sun-Down 10 Year Product Warranty — a promise of quality unequalled in the enclosure industry. We provide:

- Durability and reliability
- Protection from corrosion, UV and environmental damage
- The most diverse selection of enclosures in the market
- Competitive pricing

Company Profile

Stahlin Non-Metallic Enclosures has been manufacturing electrical enclosures for more than 60 years in the USA. We are the pioneers of the original fiberglass enclosure. What started out as a solution for excessive corrosion in a gulf coast oil platform application, has become the most diverse non-metallic enclosure product offering for a wide variety of industries, providing proven solutions to everyday on-the-job problems. We are a member company of Robroy Industries, founded in 1905 and still under one-family ownership.

Applications

Stahlin is ideal for a wide range of indoor/outdoor applications.

Stahlin Non-Metallic Enclosures are designed for electrical and electronic enclosure applications in commercial or industrial locations that are classified as non-hazardous. Stahlin enclosures provide a balance between appealing aesthetics and stringent physical property performance standards including NEMA 4X and NEMA 6P.

Industries

- Renewable Energy Applications
- Waste water treatment
- Oil exploration
- Oil refining
- Oil pump systems
- Chemical processing
- Rail/transit systems
- Bridges
- Marinas
- Marine buoy
- Manufacturing
- Architectural
- Outdoor landscaping
- Food and beverage
- Hospitals
- Heavy duty trucking
- Environmental monitoring
- Gas monitoring
- Battery storage
- Pump and slurry systems
- Breweries

“Stahlin has been a successful U.S.-based manufacturer of non-metallic enclosures for more than 60 years. What begins with product quality is fulfilled through equal quality in the relationship with our world-class distribution partners who bring our diverse enclosure families to wide ranging job sites. We are proud to be associated with Rockwell Automation for that reason and pledge ourselves to supporting the enclosure needs of your valued customers.”

Jeff Seagle, President, Stahlin Non-Metallic Enclosures

Because Stahlin Non-Metallic Enclosures is the primary source producer of all our own enclosure components, we provide assured quality control. From a single manufacturing location we:

- Formulate and blend our own fiberglass composite including Patented SolarGuard® for unequaled UV resistance
- Mold our enclosures using the highest processing standards
- Integrate CNC and other technologies to optimize bonding, gasketing, customizing functions, and final assembly processes
- Maintain a balance between appealing aesthetics and stringent physical property performance standards including NEMA 4X and NEMA 6P integrity

Stahlin provides the most extensive in-stock line of non-metallic enclosures and accessories including:

- Junction Enclosures – More than 150 configurations in 13 sizes ranging from 6"x4" to 24"x24"
- DiamondShield® Series – More than 85 configurations. Size range from 6"x6" to 20"x16"
- Control Tower N Series – Over 360 configurations in 62 sizes. Ranging from 48"x36" to 90"x72"
- Wall Mount N Series – Over 125 configurations in 65 sizes. Size range from 16"x16" to 36"x36"
- PolyStar Enclosures – Most durable, reliable NEMA 4X non-metallic polycarbonate enclosures available

Also: Inline and multi-hole pushbutton enclosures – Wall mounts and control towers – NewSentry™ PVC enclosures – disconnect enclosures – various accessories – custom designed products for specific uses – full range of enclosure modification services.

Nearly 7 decades of marketplace leadership and product quality.

PartnerNetwork™

The PartnerNetwork program is a framework of well-managed relationships formed as a result of customer need. It provides manufacturers with access to a local, regional and worldwide network of best-in-class suppliers. These specialists offer the industry experience and technological know-how to help solve business challenges both large and small.

Through the PartnerNetwork program, Rockwell Automation delivers a wide array of solutions, easier access to knowledge and consistent delivery of solutions to help improve our customer's business results.

SOLARGUARD® DOUBLE PROTECTION

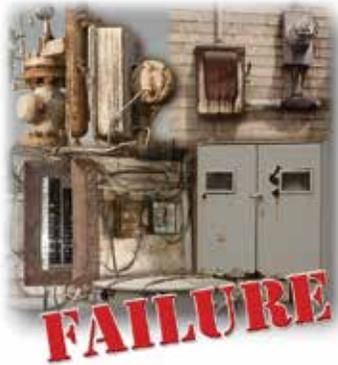

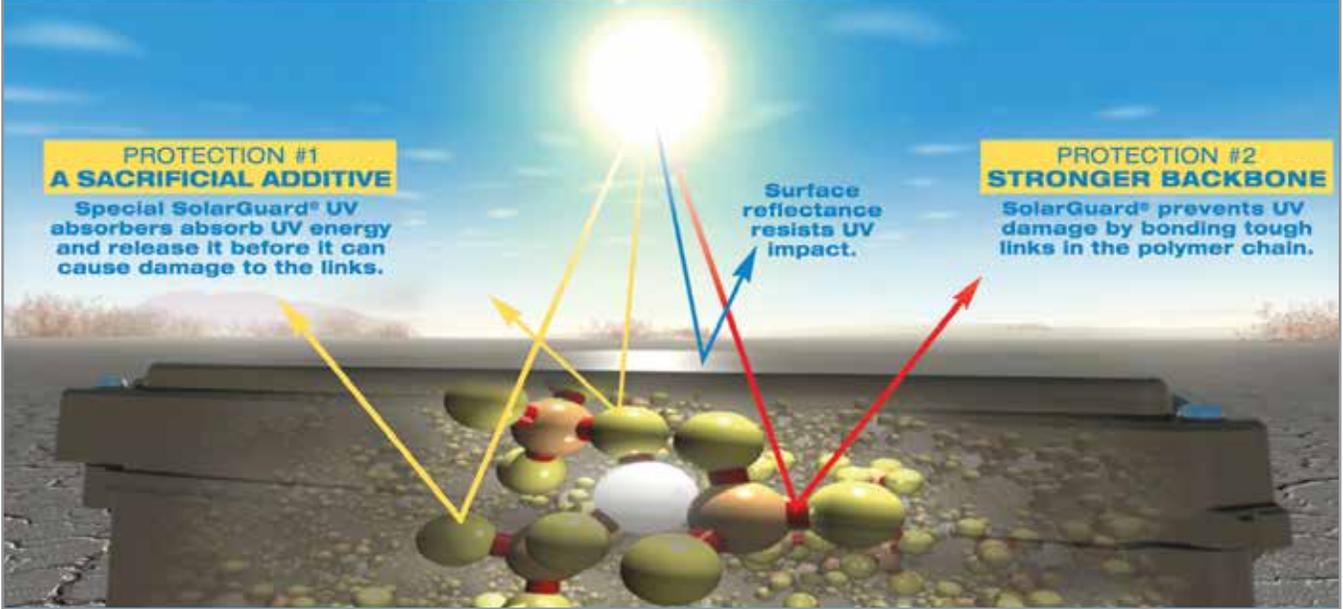

PROTECTION #1 A SACRIFICIAL ADDITIVE

Special SolarGuard® UV absorbers absorb UV energy and release it before it can cause damage to the links.

Surface reflectance resists UV impact.

PROTECTION #2 STRONGER BACKBONE

SolarGuard® prevents UV damage by bonding tough links in the polymer chain.
