Panels Side Panel

Aluminum Side Panel for AttaBox Series Polycarbonate Enclosures 20 Inch

Catalog Number	SP20
UPC	785928580680

DESCRIPTION

20 Inch Aluminum side panels allow for mounting of components on enclosure walls, increase mounting space and flexibility, and reduce the need to increase the enclosure size to accommodate additional components—enabling customers to use smaller enclosures in applications requiring tight spacing.

APPLICATION

- Designed for flexibility of equipment installation, these aluminum Side panels allow for mounting of components on the enclosure side walls (either on the long or short side) and provide added mounting space which allows customers to use smaller enclosures in applications requiring tight spacing.
- Increases customer installation flexibility. Equipment can be mounted on multiple sides of the enclosure, in addition to the traditional enclosure back wall.
- Lowers cost by reducing the need to increase the enclosure size for added equipment mounting space.
- Reduces Engineering Labor (Maintains enclosure mounting footprint).

FEATURES

- Corrosion resistant slot nut hardware kit included
- Simple and easy installation with the use of common tools. Simply install, position, and secure the side panel using the provided slot nuts which fit perfectly in the innovative enclosure T-Slots.
- Available as standalone SKUs or packaged with our enclosures.
- Hardware included
- Simple and easy installation with the use of common tools
