DESCRIPTION

Diamond Shield Dead Front Swing Panel Mount Accessory Kit, Includes Swing Panel Mounts and Hardware. Panel Not Included. Fits all Diamond Shield Enclosure Sizes and is used to secure a swing panel to the Diamond Shield Enclosure. Suitable for installation in harsh conditions.

APPLICATION

- Designed for OEMs looking to save time and labor while installing a swing panel or a dead front panel in the most functional, intelligently designed fiberglass enclosure on the market.
- This innovative, patent pending design functions with all existing Diamond Shield sizes and can be ordered as a complete kit with panel included, or as a hardware kit with swing panel mounts only for customers who prefer to provide their own panels.
- Quick and easy installation by placing the swing panel mounts onto the molded onto the molded-in T-post in the corners of the enclosure and securing with the included set screws.

FEATURES

- Swing Panel Mounts (4 per kit)
- Patent Pending
- Innovative Design allows for installation in new and retrofit Diamond Shield applications
- Corrosion Resistant Material Construction
- Simple and Easy Installation with common tools
- With our expanded size range, the new Swing Panel Mount Kits are available in sizes 6" x 6" to 20" x 16". New 6" x 6" compact size available.
- Standard Swing Panel Mount components function with all sizes of Diamond Shield enclosures.
