

Stahlin[®] Polycarbonate Enclosures

POLYSTAR[®], POLYSLIM[™], OPERATOR INTERFACE ENCLOSURES, ELECTRICAL JUNCTION ENCLOSURES

**The most innovative, durable and reliable
polycarbonate enclosures available!**

stahlin.com

 **STAHLIN**

Stahlin[®] Polycarbonate Enclosures

are ideally suited for:

RUGGED APPLICATIONS REQUIRING ENCLOSURE STRENGTH

Over 40% stronger than the competition*, Stahlin's thick, robust side walls eliminate flexing. Heavy-duty and durable, they are produced from a polycarbonate material formulation which provides high-impact resistance and dimensional stability. Our enclosures are popular and reliable in industrial and manufacturing applications within continuously demanding environments.

*Results of independent testing conducted with off-the-shelf competitive polycarbonate enclosures

APPLICATIONS WITH LIKELY NEED FOR IMPACT RESISTANCE

Metal enclosures are vulnerable to denting upon impact, which, along with aesthetic concerns, can compromise the integrity of the seal that protects everything housed within the enclosure. Although Stahlin polycarbonate has a lighter weight than other materials, it boasts a higher impact resistance.

APPLICATIONS REQUIRING CORROSION RESISTANCE

Stahlin polycarbonate enclosures are available with full non-metallic or stainless steel cover latches and full non-metallic hinges that don't penetrate the enclosure and meet NEMA Type 4X requirements, which specifies an increased level of protection from corrosion. Because of this, we meet the demands of diverse industries from oil and gas to carwashes to marine environments.

APPLICATIONS WHERE INSTALLATION AND LABOR ARE CHALLENGES

Polycarbonate, compared with metal enclosures, is lightweight, making it easier and quicker to install; thereby being of value in overall cost reduction.

APPLICATIONS WHERE UV RESISTANCE IS IMPORTANT

Because of natural resistance to UV degradation, polycarbonate enclosures can weather the passage of time even in harsh exterior applications. Stahlin polycarbonate enclosures carry an f1 rating for outdoor use per UL 746C.

APPLICATIONS WHERE EASE OF MODIFICATIONS IS IMPORTANT

Stahlin polycarbonate enclosures are easy to modify using standard tools for cutting holes, windows, vents, and drains. They cut cleanly without dust and resist delamination. Our ModRight program offers value-add factory design, engineering, and modification to help customers solve demanding product application challenges.

APPLICATIONS USING WIRELESS TECHNOLOGY

Stahlin polycarbonate enclosures are ideal for protecting wireless technology because they allow wireless and radio frequency signals to pass unobstructed through the enclosure. This allows you to have the antennas inside of the enclosure. Additionally, there is the option to block EMI/RFI frequencies if needed, giving you more flexibility than metal enclosures.

Stahlin® PolyStar® Enclosures

Stahlin® PolyStar® Enclosures are designed to be used in a variety of outdoor or indoor applications. They provide superior protection against rain, sleet, snow, splashing water, hose directed water, submersion, sun/uv and flames.

Superior Protection Against:

RAIN, SLEET
& SNOW

SPLASHING &
HOSE DIRECTED
WATER

SUBMERSION

SUN/UV

FLAMES

INNOVATIONS & FEATURES:

- One Enclosure, One Solution, One Price! Enclosure can be configured as hinged with screw cover or hinged with latched cover
- Fully nonmetallic hinge, does not penetrate inside enclosure
- Thick, robust side wall construction eliminates side wall flexing
- Built in DIN Rail mounting embosses in the back of the enclosure
- Capability to add side panels, DIN rails or instruments
- Innovative PolySlim low-profile enclosures are ideal for equipment with minimal depth and for wireless communications applications
- Sliding T-Nut allows for infinite panel adjustment back to front
- Latch options – fully non-metallic or stainless steel (see Accessories)
- Clear or Opaque cover options
- Multi-directional mounting feet or flange options allow mounting flexibility
- Aluminum back panel and swing out panel mounting options
- Industry leading size range: 6" x 6" to 24" x 24"
- Compatible with Stahlin SolarShield HMI Cover

MATERIALS & PERFORMANCE:

- Performance: -40°F to +248°F (-40°C to +120°C)
- UL 94 Flame Rating – 5VA (highest flame resistance)
- UL's best rating, Outdoor Exposure, an "f1" per UL 746C (resin has passed tests for UV exposure and water immersion)

RATINGS & LISTINGS:

- cULus per file #E319779 Type 1, 3R, 4, 4X, 6P*, 12
- UL50, UL50e, UL508A
- IEC 60529: UL Listed per file #E362920 IP66, IP68*
- Certifications: cULus, CE, REACH, and RoHS

*Restrictions apply. Consult factory for more information.

PolyStar® Innovative Features

Industrial Control Enclosure

One box, one solution, hinged/latched and screw cover type

Full non-metallic hinge, does not penetrate enclosure

Broad size range: 6" x 6" to 24" x 24"

Clear and opaque cover styles available

Thick, robust sidewall and base construction prevents flexing of walls

Integrated locking clasp

Built-in DIN Rail mounting embosses

Easy to remove door

Full non-metallic or stainless steel cover latches

Robotically-applied foam-in-place gaskets

T-Channel and Slot Nut design allows for infinite adjustment of panels

 UL LISTED
UL Listed as Industrial Control Enclosure

Available Modifications:

- Custom Holes/Cutouts
- Silk Screening/Digital Printing
- Custom Colors

UL 94 Flame Rating – 5VA

- PolyStar® Enclosures provide the highest (most flame retardent) UL 94 rating available.

Flexible Options

- Increases usable space
- Provides more mounting options
 - DIN Rails
 - Back and Side Panel options
 - Mounting embosses in back
 - Optional Weight Distribution Shelf

Panel Systems

- Sub-panel mounting solution
 - Revolutionary design
 - Variable height mounting
 - Panel locks into open position
 - Mounting holes are standard JIC

Mounting Solutions

- Multi-directional mounting feet or NEW Mounting Flange included as means of attachment

SELECT. MODIFY. DELIVER.

SelectRight™ Program

Stahlin's extensive range of standard polycarbonate enclosures, panels, accessories, and other material options gives you the flexibility to select exactly the right non-metallic enclosures to meet the specific demands of your applications.

- Broad selection of standard, configurable, off-the-shelf, corrosion-resistant, non-metallic enclosures to meet your applications.
- Selection of options from available products to meet specification, reduce lead time, and optimize initial costs.
- Product selections ready to use and available now.

ModRight™ Program

Stahlin's ModRight Program is designed to support you in very uncommon or complex applications. From the basic product through all of its custom/modified required changes, to the moment it arrives on your doorstep for installation into your application, Stahlin ModRight offers standard and custom assistance for your every need. To receive a quotation or further information, visit www.stahlin.com/modright.

Modifications can be mixed and matched in an endless number of combinations. They can take the form of:

- Custom cutouts/holes
- Silk screening
- Digital printing
- EMI/RFI shielding
- Custom mold-in colors
- Other special requests

DeliverRight™ Program

DeliverRight provides fast service and delivery of products ready to use when and where you need them. Value-add options are available to improve your productivity including direct shipment, bulk packaging, kitting, and custom labeling.

- Ensures you customer-first service, supply chain, and on-time delivery.
- A trusted partnership approach from consultation and quotation, to packaging and delivery.
- U.S. based manufacturing plus dedicated points of contact help manage orders and delivery.

PolySlim™ Series Low-Profile Enclosures

Back panels available in ABS material to optimize wireless signal transmission

Optional ABS back panel

VALUE	FEATURES	BENEFITS
Optimized Depth	→ Shallow depth design with industry standard height/width eliminates unneeded depth and is ideal for low profile applications	→ Saves space in installation and reduces material cost
Robust, Smooth Side Walls	→ Increased fitting mounting space and an aesthetically pleasing appearance	→ Long dependable product life → Increases the quantity of fittings which can be installed
Aesthetics	→ Low profile design meets customer aesthetic requirements when mounting in visible areas on or inside buildings.	→ Improved appearance provides a nice clean look for brand promotion
Flexibility	→ Built-in DIN Rail mounting embosses in the back of the enclosure offers an alternative to back panel mounting → Molded-in mounting feet with added mounting cross → Available in Opaque or Clear Covers to suit customer application	→ DIN Rail embosses save time and back panel cost → Reduces need for costly on-site modification or adjustments

Weight Distribution Shelves

- APPLICATIONS:**
- This innovative weight distribution shelf provides an extremely rugged support system when adding heavy equipment in polycarbonate enclosures.
 - Ideal for support when adding a power supply, battery, or heavy equipment.

- BENEFITS:**
- Improves installation quality by reducing potential for bottom wall deflection
 - Reduces risk of enclosure and equipment maintenance and replacement costs due to damage from added weight

- INNOVATIVE FEATURES:**
- Aluminum shelf supported by enclosure side walls reduces risk of deflection of the enclosure bottom wall when subjected to increased weight load
 - Available in 7 SKUs designed for use with our polycarbonate enclosure sizes from 10" x 10" to 24" x 24"
 - Constructed from strong, lightweight, corrosion resistant aluminum
 - Available as standalone SKUs or included with our polycarbonate enclosures*
 - Fastening hardware included

**When ordered included with the enclosure, shelves are shipped unassembled and included in the enclosure carton.*

PolyStar® Series Interior Mounting Solutions

Side Panel Kits

APPLICATIONS: → Aluminum side panels allow for mounting of components on enclosure walls, increase mounting space and flexibility, and reduce the need to increase the enclosure size to accommodate additional components—enabling customers to use smaller enclosures in applications requiring tight spacing.

BENEFITS:

- Increases customer installation flexibility—equipment can be mounted on multiple sides of the enclosure, in addition to the traditional enclosure back wall
- Lowers cost by reducing the need to increase the enclosure size when more mounting space is required
- Reduces engineering labor (maintains enclosure mounting footprint)

INNOVATIVE FEATURES:

- Available in 9 SKUs designed for use with our polycarbonate enclosure sizes 6" x 6" to 24" x 24"
- Corrosion resistant slot nut fastening hardware kit included
- Simple and easy installation with the use of common tools—simply install, position, and secure the side panel using the provided slot nuts which fit perfectly in the innovative enclosure T-Slots.

CATALOG #	DESCRIPTION	PIECES INCLUDED
PCSNK	Slot Nut Kit	Two nuts & two screws
PCSPMK	Swing Panel Mounts	Four per kit
PCLATCHKIT	Polycarbonate Replacement Latch Kit	Two non-metallic latches per kit
PCACCESSORYKIT	Accessory Kit – replacement only	Four mounting feet, cover screws, mounting caps, back panels screws, & washers
PCLATCHKITSS	Stainless Steel Replacement Latch Kit	Two stainless steel latches per kit
REV60	Small Vent (60mm) UL Listed 3R	Mounting nut
REV80	Small Vent (80mm)	Mounting nut
MFK6 MFK8 MFK10 MFK12 MFK14 MFK16	Mounting Flange Kit for Polycarbonate Enclosures (6"-16")	Two polycarbonate mounting flanges, four countersunk screws
REHPERIES1	Pluggit! Kit – Fits Cutouts for 1/2", 5/8", 3/4" Dia. Hole	Hole plug, gaskets, spacer sleeve
REHPERIES1.5	Pluggit! Kit – Fits Cutouts for 1/2" Conduit	Hole plug, gaskets, spacer sleeve
REHPERIES2	Pluggit! Kit – Fits Cutouts for 1/2" Conduit, 22mm Push Button, 3/4" Conduit, 30mm Push Button	Hole plug, gaskets, spacer sleeve
REHPERIES3	Pluggit! Kit – Fits Cutouts for 1", 1 1/4" Conduit	Hole plug, gaskets, spacer sleeve
REHPERIES4	Pluggit! Kit – Fits Cutouts for 1 1/2", 2" Conduit	Hole plug, gaskets, spacer sleeve
REHPERIES5	Pluggit! Kit – Fits Cutouts for 2 1/2" Conduit	Hole plug, gaskets, spacer sleeve
REHPERIES6	Pluggit! Kit – Fits Cutouts for 3" Conduit	Hole plug, gaskets, spacer sleeve
REHPERIES7	Pluggit! Kit – Fits Cutouts for 3 1/2" Conduit	Hole plug, gaskets, spacer sleeve
REHPERIES8	Pluggit! Kit – Fits Cutouts for 4" Conduit	Hole plug, gaskets, spacer sleeve

SolarShield™ HMI Cover

How It Works:

APPLICATIONS:

- Extremely tough and durable, patented SolarShield HMI Covers are used in both outdoor and indoor applications. They provide superior protection of Human Machine Interface (HMI) screens from the sun, wind-blown dust, water, oils, chemicals, grease, and other environmental conditions.

BENEFITS:

- **Simple and Functional:** Easy to use, hinged design includes supporting inner doors for hands-free use and better visibility of the HMI screen in the sun.
- **Superior Protection:** SolarShield HMI covers protect HMI screens and electrical equipment from corrosion and damage due to UV, water, oils, dirt, and sand and greatly reduce equipment replacement cost.
- **Strength:** Impact resistant polycarbonate construction provides long dependable life in harsh conditions.

INNOVATIVE FEATURES:

- Patented with non-metallic, hinged inner doors to shield screen from the sun and allow for hands-free use
- Maintains NEMA Type 4/4X enclosure rating when paired with a NEMA Type 4/4X HMI device
- Universal covers can be used with either non-metallic or metallic enclosures
- Fits most standard 10" x 8" and smaller HMI screens
- Lightweight, high-impact rated, UV resistant polycarbonate material construction
- Stainless steel hardware kit included
- Padlock-able for increased security
- Simple and easy installation with the use of common tools
- Installation instructions and drill template provided
- Color: Pantone 428C

Also available in Clear configuration without hinged inner doors!
