

NOW AVAILABLE!

Pole Mount Kit Expansion

Our new, expanded line of Pole Mount Kits are a versatile addition to the broadest line of non-metallic enclosures in the industry and save labor by eliminating the need for onsite customer fabrication!

Designed for use with our most popular fiberglass and polycarbonate product families including J Series, Diamond Shield®, Classic, and PolyStar®, these kits accommodate a variety of pole materials and applications. Manufactured with corrosion resistant brackets and hardware, they are an ideal for contractors and installers when mounting enclosures in pole or post mount applications.

MOUNTING ENCLOSURES JUST GOT EASIER!

Stahlin®'s pole mount kits have a flexible, adjustable mounting strap and fits the enclosure dimension that is mounted perpendicular to the pole. The kits come with gray powder coated carbon steel top and bottom flanges, stainless steel straps, and mounting hardware.

MARKETS AND APPLICATIONS:

- Industrial and commercial applications
- Common installations include Communications, Monitoring, and Security

FEATURES AND BENEFITS:

- Completely eliminate the need for customer fabrication of mounting solutions
- Simple and easy to install, they accommodate a variety of pole materials and applications
- Adjustable stainless-steel straps fit 5" - 12" diameter poles
- Designed to fit the enclosure dimension that is mounted perpendicular to the pole*
- Suitable for indoor or outdoor use
- Manufactured with corrosion resistant brackets and hardware

MATERIALS:

- Top and bottom flanges: Powder coated carbon steel
- Hardware (Clamps, Screws, Washers, Nuts): Stainless steel
