Stahlin Non-Metallic Enclosures Provides a Reliable, Lightweight, Custom Yellow Enclosure for BSN Sports Cool Hydration and Powered Team Drinker's Units.

BSN Sports is a leading marketer, manufacturer and distributor of sporting goods apparel, footwear and equipment based in Dallas, Texas.

THE CHALLENGE

BSN Sports needed a reliable enclosure to house electronic components for its Sports Cool Hydration Line, a system designed to quench the thirst of eight players at once with eight drinking stations and drinking tubes.

BSN Sports also required the same size enclosure for the Powered Team Drinker's, a portable water fountain that has six retractable coil drinking hoses. The enclosures were needed to house a water pump and 12-volt battery for each system.

Inside, the enclosures protect a portable water pump with filter, 12-volt rechargeable battery and a fluid hose that enters through the bottom of the enclosure and exits at the top of the enclosure. Stahlin provided BSN Sports with a custom yellow color, with pre-drilled holes for the pump mount and fluid hoses.

The Stahlin J Series product line is designed as an industrial enclosure for harsh, aggressive environments. Originally developed as an electrical junction box for the oil refining and petrochemical industries, the J series has evolved into a versatile industrial enclosure line available in 16 sizes with varied applications for use from high-end electronics to extreme corrosive applications both indoors and out.

THOUGHTS ABOUT THE SUCCESS OF STAHLIN ENCLOSURES

According to Steve Thornquist, Research and Development Manager, BSN Sports: "BSN Sports has had excellent performance from Stahlin Non-Metallic Enclosures. We have had the enclosures in use for more than 10 years. Discovering the Stahlin Non-Metallic Enclosures J Series product line worked out perfectly for our needs."

THE SOLUTION TO THE CHALLENGE

"During my search for a fiberglass option, a peer recommended Stahlin Non-Metallic Enclosures, having had success with their products," stated Brian Murdick. "We currently are using Stahlin's N Series Type 4X Configurations with stainless steel BSN Sports selected Stahlin's J1210HLL, as it was the perfect size and fit for both applications."
